## Pirelli

### Pirelli

A GLOBAL HIGH VALUE CONSUMER TYRE COMPANY.

The Pirelli brand is known as an icon of technology and excellence. It is a name that stands for a premium, high-end style with an Italian heritage all underlined by the company's dominant position as a supplier to luxury car manufacturers.

Pirelli

## Problem

Pirelli organizes campaigns regularly to provide incentives to their clients. They have been using traditional methods for collecting data. The process was manual and takes lot of time and efforts

## Solution

A web based application was proposed which will be able to handle all their requirements and will give proper reports whenever required

# NRS Infoways - Case Studies

Pirelli

## Secure Login

Only authorized users will be able to login to the system

## Mobile Responsive

The application can be used on any device from PC to Mobile to Tablet

## Admin Dashboard

Dashboard displays summary of all important information to Administrator

## User Management

Administrator can add or remove users and manage their access

## Export Features

The reports can be easily exported to Excel spreadsheet

## Easy interface

Very easy to use interface, so that there is no learning curve

## 2 Step Registration

As per the requirement 2 step registration was built-in.

## Analytical Reports

Reports section gives all kinds of reports that were requested

## Reusable

The application can be reused many times by using the reset functions
