Shell

## Problem

Shell wanted to do survey for its distributors and its club members and wanted to provide incentives to them based on the performance. At the same time they wanted to collect important market information

## Solution

A web based application was proposed which will be able to handle all their requirements and will give proper reports whenever required

# NRS Infoways - Case Studies

## Shell

### Secure Login

Only authorized users will be able to login to the system

### Mobile Responsive

The application can be used on any device from PC to Mobile to Tablet

### Admin Dashboard

Dashboard displays summary of all important information to Administrator

### User Management

Administrator can add or remove users and manage their access

### Export Features

The reports can be easily exported to Excel spreadsheet

### Easy interface

Very easy to use interface, so that there is no learning curve

### Geo Location

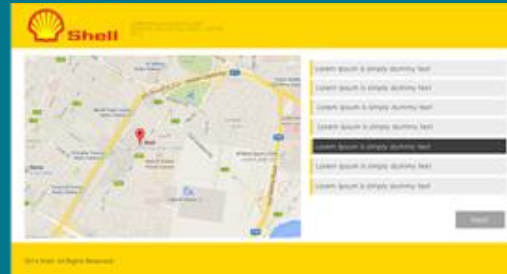

The locations of each outlet were inbuilt in the app

### Stock Reports / Analytical Reports

Reports section gives all kinds of reports that were requested

### Click & Save Pictures

The users were able to click pictures and upload directly from the app
